Introduction

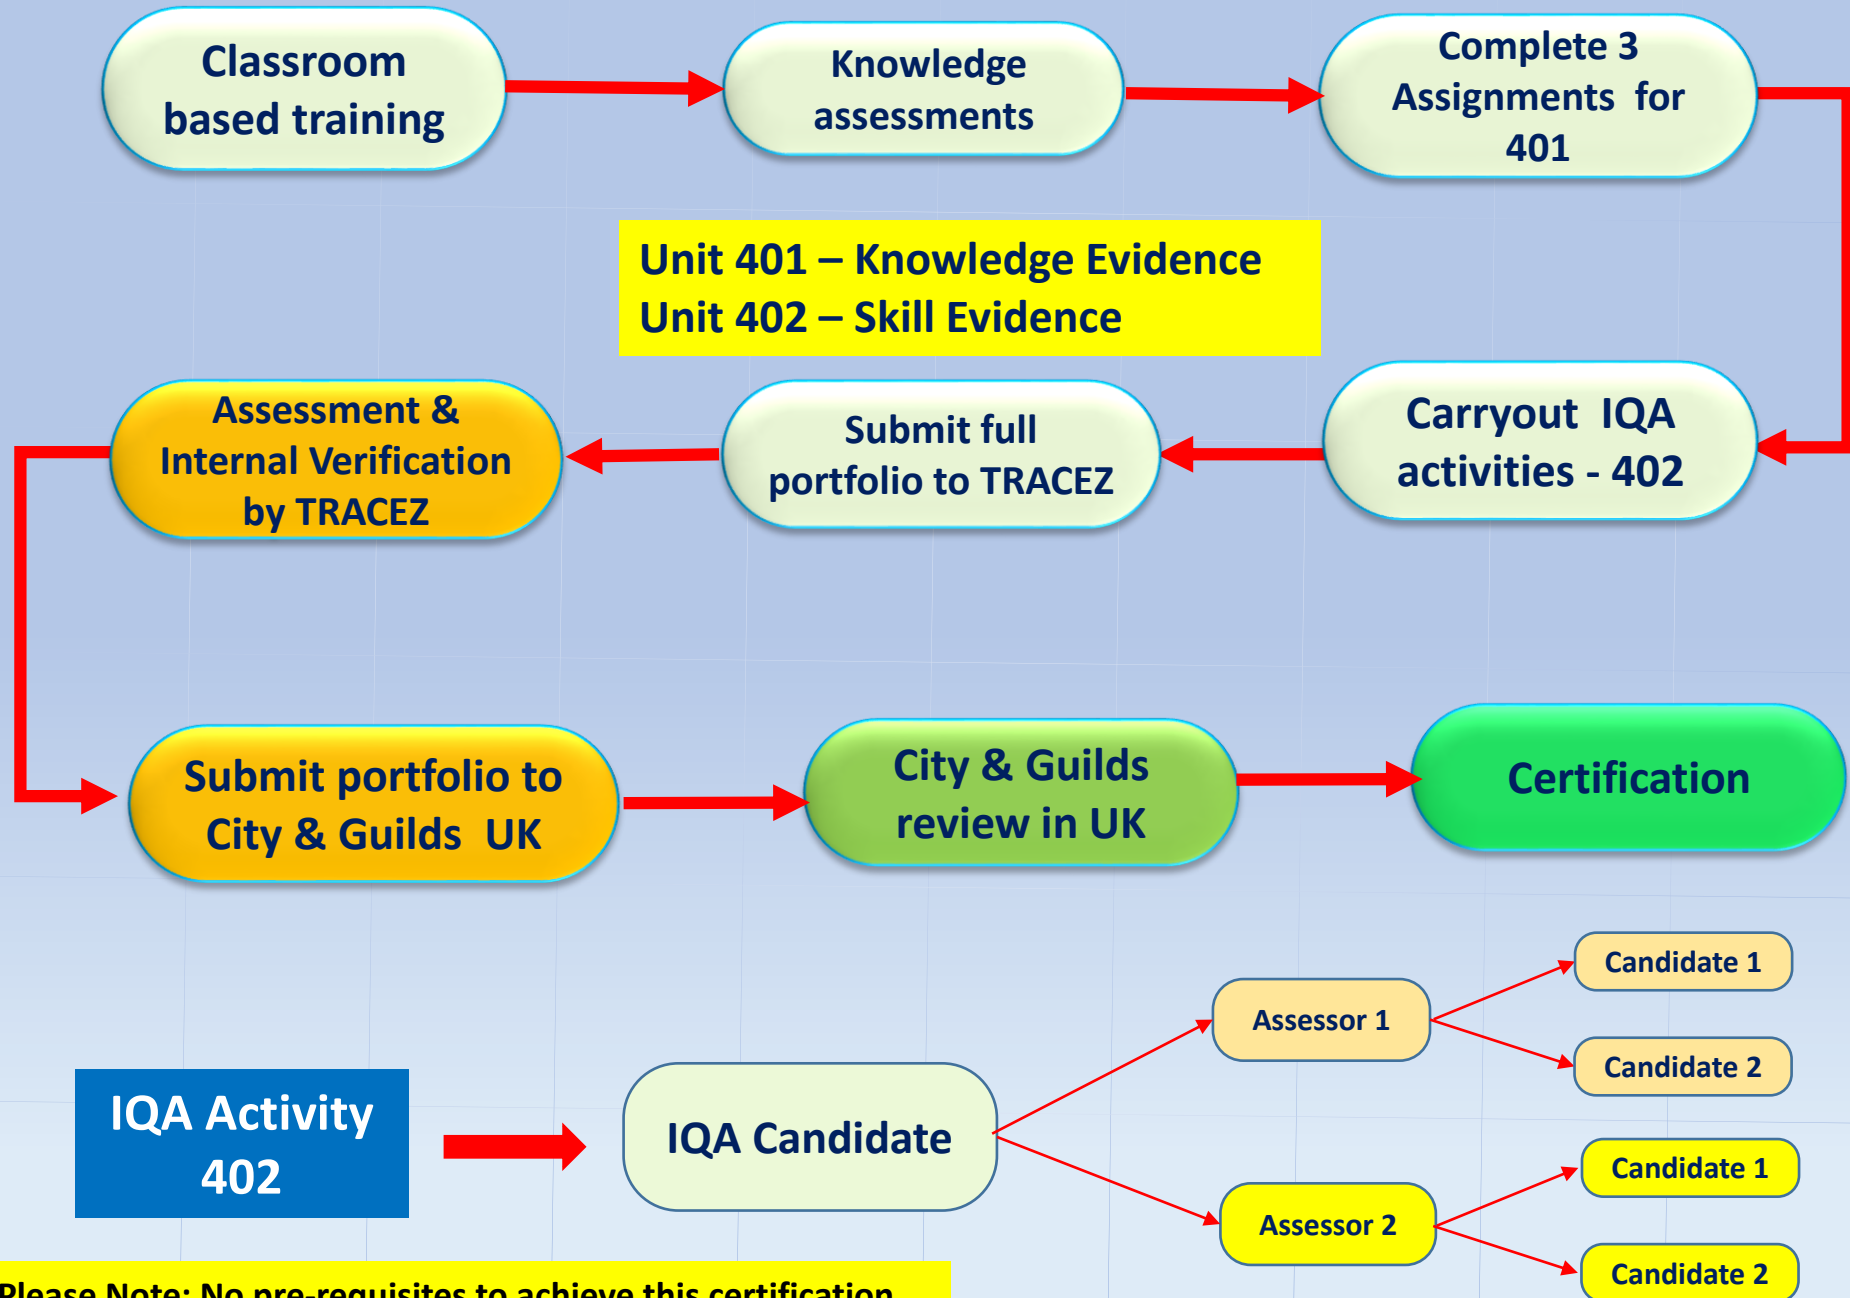

Internal Quality Assurance is the process of managing the quality of assessment process and systems. Assessment process must be transparent, fair, reliable, current and sufficient. An internal verifier has the responsibility to assure that the assessor followed the right practices and methods in all stages of evidence collection, decision making and feedback .

This qualification is an essential tool for all those who have responsibility to manage the capability development and certification systems.

IQA level 4 is a new qualification and is in high demand. The capability and expertise provided as part of the program is not only to carryout the internal verification process but also for the overall management of the Training/L& D/ Competence development systems
